SECTION 6

18. In consideration of these understandings and of the benefits to be derived, I, the cooperator or cooperator's representative, agree to: take reasonable precautions to prevent injury to livestock and other domestic animals; assume responsibility for injury to my property under my control, when said injury is not the result of negligence on the part of APHIS; assist in maintaining such warning signs as APHIS may place for the purpose of notifying persons entering onto such lands of the possible hazards associated with wildlife damage management measures in use thereon; and to give adequate warning of these possible hazards to persons I authorize to enter onto such lands. Further, in recognition of the benefits to be derived from the use of specified methods and devices authorized by this Work Initiation Document, I, the cooperator or cooperator's representative, agree not to concurrently use or allow to be used upon lands covered by this Work Initiation Document, any toxic material that might reasonably be expected to take a species listed above in Section 3, Item 14. (and Item 15., if applicable) unless such use of said toxicant is agreed to by APHIS in writing.
